

## **Open Faculty Position: Assistant/Associate/Full Professor of Practice**

The Electrical and Computer Engineering Department at the University of Arizona invites applications for a full-time, non-tenure eligible, multi-year renewable term faculty position at the rank of Assistant/Associate/Full Professor of Practice to begin in August 2018. Position title and salary will be based on the qualifications of the selected candidate.

### **Duties & Responsibilities**

The department has teaching needs in a variety of undergraduate courses including basic circuits, electronic circuits, device electronics, analog integrated circuits, applications of engineering mathematics, introductory and intermediate computer programming (C, C++, Java), microprocessors, embedded systems, signals and systems, electromagnetics and digital design. The candidate is expected to teach a large subset of these courses. The ECE department is in the process of developing a fully online BS program. Therefore, the successful candidate may also be required to develop online courses and teach online.

### **Minimum Qualifications**

Applicants should hold a Ph.D. or M.S. in electrical/computer engineering or a related field, with a record of experience and demonstrated excellence in teaching. Review of all materials will begin February 2018 and will continue until the position is filled.

### **Preferred Qualifications**

Significant research or industry experience is preferred for this position

To be considered, interested applicants must submit their credentials to the University of Arizona online human resources links below:

### **Diversity Statement**

At the University of Arizona, we value our inclusive climate because we know that diversity in experiences and perspectives is vital to advancing innovation, critical thinking, solving complex problems, and creating an inclusive academic community. We translate these values into action by seeking individuals who have experience and expertise working with diverse students, colleagues and constituencies. Because we seek a workforce with a wide range of perspectives and experiences, we encourage diverse candidates to apply, including people of color, women, veterans, and individuals with disabilities. As an Employer of National Service, we also welcome alumni of AmeriCorps, Peace Corps, and other national service programs and others who will help us advance our Inclusive Excellence initiative aimed at creating a university that values student, staff and faculty engagement in addressing issues of diversity and inclusiveness.
